Sustainability, also our concern

Sustainability is an important concept at Henco. Apart from offering sustainable solutions, such as underfloor heating, we also want to operate sustainably as a company. This implies taking the 3 P's into account: planet, people and profit.

To us, corporate sustainability means paying attention to these three pillars by taking a variety of actions internally. For instance, it is important to deal sustainably with internal employees, to conduct a correct environmental policy and to use our profits wisely.

Recently, we mapped our total CO²-footprint, including scope 1,2 & 3 emissions and developed an action plan to reduce significantly during coming year.

ISO14001 certified

All the effort we put into environmental matters resulted in Henco getting through the certification audits for ISO14001. After 3 days of audits on various business processes, we achieved a very positive audit result without any recorded remarks. The auditor praised, among other things, the enthusiasm of our employees and the broad demonstration of sustainability throughout our processes.

Aalberts Sustainability Award 2021

Aalberts also saw that we at Henco value sustainability and that we show this through all our actions. In 2022 we were very pleased to accept the Aalberts sustainability awards 2021.

The VOKA sustainability charter: SDG pioneers

The VOKA sustainability charter was achieved by Henco for the 3rd year in a row. With this, we have officially been appointed as SDG pioneers. Sustainability is held in high esteem at Henco, this certificate proves it and we are proud of it.

Environmental and health statement Cochebat

The French HVAC association Cochebat has tested and approved our Henco multilayer pipes and we were rewarded with inclusion in their Environmental and Health Statement.

Interseroh Certificate Resources Saved

In 2020 and 2021 Henco received the Interseroh Certificate for Resources Saved in Germany. By recycling materials in 2021, a calculated 42,269 kilograms of resources and, in addition to this, 5,521 kilograms of greenhouse gases were saved.

F. HENCO ECOLINE

Type: HNA-ECOLINE-SET

Basic set for Inliner
Conjunto básico para interior
Conjunto básico para Inliner

Article number	Bag / Box	Type
HNA-ECOLINE-SET	1 pc. / -	HNA

composition:

- 1x 9HNA (T-piece)
- 4x HNA (Bracket set)
- 1x HNA-EK05 (Adapter HNA-EK)
- 1x HNA-INLB (Base plate for inliner)

The Henco ECO-line is an energy saving solution for recirculation loops, which limits heat loss between supply and return pipe.

A separate pipe for the circulation water is no longer required.

Designed on the Henco Super Size concept, it also combines modularity and easy installation.

ONE CONCEPT FOR ALL DIMENSIONS FROM 40 UP TO 75MM

- Cost effective
- Easy installation
- Less space consumption
- Anti legionellosis

Necessary items to complete the ECOLINE installation *
